ECAN

Democracy means 1 man/woman 1 vote. Nothing else is acceptable. Ever since National took control of Ecan we have had undemocratic decisions which have destroyed our environment so a few people can desecrate our waters with little to gain nationwide in return. The only thing that has happened is national has solidified its vote. While I agree that the urban rivers and streams need urgent attention this should not be so that rural rivers and streams can be polluted.

Your sincerely

Peter Elder
