Subject: Gerrymandering "democracy" is unacceptable - if Ecan continues down this path you will have the mother of all fights on your hands

Kia ora Ecan,

It's outrageous that your proposal for "democracy" in Ecan means my vote will count for much less than an irrigator's vote in South Canterbury.

This is unacceptable and I invite you to show the same respect for my democratic rights as anyone else. Gerrymandering is something I thought belonged in the past – like the attitudes of those destroying our natural environment.

If you continue down this path you'll have the mother of all fights on your hands.

Na,
