

BEFORE THE CANTERBURY REGIONAL COUNCIL

UNDER The Resource Management Act 1991 (**Act**)

AND

IN THE MATTER OF Application CRC190445 by the Christchurch City Council for a comprehensive resource consent to discharge stormwater from within the Christchurch City area and Banks Peninsula settlements on or into land, into water and into coastal environments

**SIXTH MINUTE OF HEARING COMMISSIONERS REGARDING
CORRESPONDENCE FROM SUBMITTER MS PENNY HARGREAVES**

- 1 A letter was received by the Hearings Officer Ms Cooper from Ms Penny Hargreaves, a submitter on this application.
- 2 The letter seeks to put further information before us. The letter covers matters addressed during Ms Hargreaves' very thorough presentation at the hearing or matters of a similar nature. The matters covered have also, largely, been addressed in other evidence before us.
- 3 We did not request further information from the submitters. We have made directions in relation to further information from the applicant and have, as part of that, provided the opportunity for submitters to address issues arising from the applicant's response.
- 4 We have considered whether we should receive the letter as evidence. Our view is that the letter does not put before us any probative evidence additional to that we have already received. We will not receive it as evidence or consider it further.

David Caldwell

Chair
