Brent,

Thanks very much for sending this through.

On the basis that the conditions that relate to the management of bird strike risk at the airport (being conditions 6(t) and 26) continue to be included then Christchurch International Airport Limited has no further comment on the conditions.

For completeness we also note that the wording of condition '56A' (being the condition simply labelled as '#' after condition 56) is consistent with our understanding of the recent discussions that have occurred between ECan and CIAL and in turn ECan and CCC – namely that the parties are working separately to work through the airport stormwater issues associated with CRC000135 and it is not going to be described in condition '56A'.

Thanks again.

I have cc'd on the [hearings@ecan.govt.nz](mailto:hearings@ecan.govt.nz) address just so (if need be) the hearings' officer can advise the Hearing Panel that on the basis of the conditions proposed it can record that CIAL's concerns have been addressed.

Kind regards,  
Ben
