Subject: Annual Plan Submission
Date: Sunday, 3 March 2019 11:49:20 a.m.

Harriet Scott just submitted the survey 'Draft Annual Plan 2019/20 Feedback' with the responses below.

Draft 2019/20 Annual Plan Feedback

The work of Environment Canterbury is reported on under six portfolios as outlined in the draft Annual Plan document 2019/20. Our website outlines many of the areas we work in, in more detail. Please give your feedback on the activity planned in the comments section under each portfolio and tell us what you support/don't support about the planned activity.

I generally support the plan for Regional Leadership

Yes

I generally support the plan for Freshwater Management

No

Please provide any comments below

You acknowledge in the plan that "water 'quality and quantity' is one of the foremost issues confronting the Canterbury community over the next 10 years. There is acknowledged over-allocation of some aquifers and rivers due to a legacy of water permits granted based on the best available information at the time, but information which has now been demonstrated as incomplete". Yet you grossly misrepresent the people of Christchurch by giving lip service to a goal of implementing "solutions to manage our freshwater resource to support community use". The key here is to the community, yet you have allowed further expansion of water extraction by a company who takes our clean, unchlorinated water directly to bottle for export to China. We, the people you are elected to represent, suffer water restrictions and chlorination while seeing no benefit or profit at all. You added insult to injury by not allowing us to consult with you on this matter you deem so important - why? It certainly throws your existence into question. We may not be able to force the Belfast-based water company to pay for the water taken, and I understand there are many reasons why, but you should be imposing a fee payable per plastic bottle they fill. These funds could then be redirected into the community you claim to support - back into your freshwater plan.

I generally support the plan for Biodiversity and Biosecurity
