This entire system is nothing more than a deliberate tax upon innovation and does not protect or husband if you like the environment. Rather it just creates a cozy habitat for yet another layer of corporate leeches

I generally support the plan for Freshwater Management

should not exist at all

Fees and Charges Policy

I generally support the proposed new charge for non-compliant incident response

No

Please provide any comments below

again nanny state is invading our ability to function as human beings

I generally support the proposed new charge for annual water-use data management

No

Please provide any comments below

if it were managed properly i.e with intent to limit nitrates, manage offtakes to all commercial users for the sole benefit of the residential population then i would show interest. But water for the boys and a quasi legal bureaucratic quango ridden gravy train is not my idea of an acceptable solution.

I generally support the changes to the existing schedule of fees and charges

No

Please provide any comments below

thievery and interference in peoples recreational pursuits by fleecing the mooring owners and users and applying punitive changes in an effort to ensure the LPC new marina is profitable and the decline and denuding of mooring generally by application of draconian and Orwellian management processes is a disingenuous rape and pillage of a way of life for many.

If you have any additional comments on the Fees and Charges Policy please provide them below.
