I am involved in a pest trapping programme in the Marlborough Sounds, where I have a secondary home. After 10 years of basic trapping - even with limited funding, it is wonderfully rewarding to see and hear so much more bird life. To have this happening in our backyard in Christchurch, will be exciting. I am a Port Hills resident, already partaking in the local trapping programme. A pest free Banks Peninsula would be a valuable asset for Christchurch. The combination of coastline, planting and abundant bird life, will not only enrich the lives of Cantabrians, but will be a strong tourist attraction. The household amount proposed seems fair and reasonable.

If you have any additional comments on the Revenue and Financing Policy please provide them below.
