Frank Hill just submitted the survey 'Draft Annual Plan 2019/20 Feedback' with the responses below.

Draft 2019/20 Annual Plan Feedback

The work of Environment Canterbury is reported on under six portfolios as outlined in the draft Annual Plan document 2019/20. Our website outlines many of the areas we work in, in more detail. Please give your feedback on the activity planned in the comments section under each portfolio and tell us what you support/don't support about the planned activity.

The Canterbury Water Management Strategy has been the greatest environmental disaster that Canterbury has seen. The Regional committee quite rightly scored progress as 0. Funding is supposed to be by a levy not by general rates. Zone Committees have failed their communities - funding should be immediately stopped. All Zone committee members should be elected.

An 8.9% increase is an absolute joke and shows once again how out of touch and aloof this council are from the ratepayers. Looks like we will be replacing the elected members also in October! We funded around a 20% (\$5.5M) increase in the CWMS last year. To add another roughly 10% is an insult to the people of this city who are getting zero benefits from the CWMS. Noting their have been zero achievements - then increased funding should match - ie zero. Funding should be provided to Aotearoa Water matching what ECAN is spending on Solicitors - noting they have got the issuing of water bottling consents completely wrong. Shameful that this council is having to fight its own ratepayers in court. No accountability is being shown
