Draft 2019/20 Annual Plan Feedback

The work of Environment Canterbury is reported on under six portfolios as outlined in the draft Annual Plan document 2019/20. Our website outlines many of the areas we work in, in more detail. Please give your feedback on the activity planned in the comments section under each portfolio and tell us what you support/don't support about the planned activity.

I generally support the plan for Regional Leadership

☒ Yes ☐ No

Please provide any comments below

Regional leadership is vital - covers a very large area and provides opportunities to work across District Council boundaries.

I generally support the plan for Freshwater Management

☒ ☐

Yes No

Please provide any comments below

Some amazing work being undertaken with communities
Great networks and improved understanding
of the "Māori world" just wonderful opportunities
Need to be encouraging land owners to work
together in our water catchments

I generally support the plan for Biodiversity and
Biosecurity

☒ Yes ☐ No

Please provide any comments below

What is the new biodiversity strategy?
We need to be working with a range of
Partners, closer collaboration with the CCC and POC
The Water Zone Committees have provided sound opportunities
to understand each "partner" including Rununga.
Landowners an important partner to achieve positive
outcomes.

I generally support the plan for Hazards, Risk and
Resilience

☒ Yes ☐ No

Please provide any comments below

Once again need to see greater collaboration
with CCC and our communities. There needs
to be a joined up approach. We have seen
some "working together" with research work inundation.

I generally support the plan for Air Quality

☒ Yes ☐ No

Please provide any comments below

No comment

I generally support the plan for Transport and Urban Development

☒ Yes ☐ No

Please provide any comments below

No comment.

Overall feedback on the draft Annual Plan 2019/20

I generally support the draft Annual Plan 2019/20

☒ Yes ☐ No

Please provide any comments below

It is good to see the biodiversity focus being raised. Biosecurity needs also to be raised. The greatest threat for a biodiversity is weed invasion eg. garden escapees pests - possums deer goats.

Fees and Charges Policy

I generally support the proposed new charge for non-compliant incident response

☒ Yes ☐ No

Please provide any comments below

No comment.

I generally support the proposed new charge for annual water-use data management

☐ Yes ☐ No

Please provide any comments below

No comment.

I generally support the changes to the existing schedule of fees and charges

☒ Yes ☐ No

Please provide any comments below

No comment.

If you have any additional comments on the Fees and Charges Policy please provide them below.

No comment.

Revenue and Financing Policy

I generally support the proposed changes to the Revenue and Financing Policy to amend the land value/land area split for Regional Targeted Pest Management rates

☒ Yes ☐ No

Please provide any comments below

The split prevents the impact of higher values for large properties.

I generally support the proposed changes to the Revenue and Financing Policy to create a rating area (including the Port Hills) to support the vision for a pest-free Banks Peninsula

☒ Yes ☐ No

Please provide any comments below

Our biodiversity values on Banks Peninsula are significant. With a focus on Pests based on work Lion years of working together and increased funding we should see good results.

If you have any additional comments on the Revenue and Financing Policy please provide them below.

There needs to be a "generous" contribution for the general rate. Looking after our biodiversity with pest control benefit all of Canterbury and NZ. So many beneficial eco system services being provided. Supporting documents
