**Reasons comment:**

I don't think that a quarry should be able to operate this close to residential houses. I am very concerned by the amount of truck movements per day and the hours of operating the quarry. The site for the proposed quarry is a large amount of land to be dug up for what is underneath the surface. I am very concerned that the quiet enjoyment that I currently have will be effected by this going ahead whether that be that it effects health, noise, daily life travelling around the roads near it. Templeton is the home of harness racing and I think that a quarry being this close is going to have a negative impact on this industry and the residents living near this land. the truck movements needs to be reduced and have the route definitely not be passed the School. The trucks also need to have covers on them so that anything on board cannot come off. The hours of operation needs to be reduced.

---

**Consent comment:**

To decline the proposed quarry and have the land used for something else.
