I support the application.

I do not wish to be heard in support of my submission.

The reasons for making my submission are:

1. Fulton Hogan have the financial resources to ensure this is a site of the future and leads the way in how a quarry should be run.
2. Fulton Hogan are an operator who cares for the environment and they will ensure that there is first class dust suppression.
3. The proposed building of the bunds will enhance the landscape for the site, it will also ensure the noise does not travel.
