Reasons comment:

I am in favour of the new Roydon quarry. The proposed site is in an ideal location to provide much needed aggregate to the roading industry in Christchurch. If quarries start being pushed further from the City, prices of aggregate will be driven up and this will affect prices of transport, roading, contracting and more. Fulton Hogan's correspondence with the Templeton community shows they're eager to listen to all feedback and answer all queries. I can see Fulton Hogan are doing their best to make as little impact on people as possible and i believe the Quarry won't pose any risk to health or well-being of residents.
