Reasons comment:

>Canterbury needs quarries in locations that benefit the building and roading industries.
>Fulton Hogan has the financial backing and large public responsibility to ensure that a new quarry has no negative effects to people and the environment. >This new quarry will allow for the future of high quality aggregate supply >Fulton Hogan actually care for the future of New Zealand and the people >This new site will provide jobs for the community >The majority of trucks exiting the quarry will head straight onto the motorway >Fulton Hogan is a transparent company who thrives on public acceptance
