2. The reasons for making my submission are: (state in summary the nature of your submission, giving reasons)

My submission is strongly opposed the Roydon Quarry by Faulton hogan in Templeton, I have lived in Templeton 30 yrs with the feeling of security for my family and hopefully my grandchildren. That is all gone now the feeling of security out the door, no one wants a Quarry that close with that amount of transport. I worry about young children and bikes and tired truck drivers not paying attention to road rules, it could be your son/daughter hurt. (Kids are unpredictable).

- Dust = The environmental impact on health and the worry about health and ^{can} make you stressed and constant cleaning of important electrical Equipment and washing.
- The lively impact of peoples way of life - ie fruit growers.
- Visual effort on drivers on windy day on new ^{motor} way.

3. I wish the consent authority to make the following decision: (give details, including the general nature of any conditions sought)

- Dust = Crush machine inside a building so cut down noise and dust.
- No Concrete plant on site.
- No truck allowed through Templeton
- Dust mist on all times during operation
- Planting of trees near Templeton (Extra Trees)
- Noise tests at plant and boundary
- Outside company to monitor Dust and report any rule breaking by F-H
- Minimise work area so dust stays on Quarry
- Water Quality monitoring at near by wells

The reason for making my submission

Traffic

- The nose of empty trucks will unsettle residents ~~and~~ at any hour as it sounds like a earthquake coming.
- As more people move out this way the more likely there will be a death as there has been 8 or more ^{deaths} on that part of road.
- With that amount of trucks blocking medical services will delay someone getting help, or a fire truck in a hurry.
- We need this land for growth over the next 40 years, not a big hole, not a good welcome for tourists coming in over head on a flight.
- People won't be able to have windows open on hot nights as truck movements won't allow them sleep.
- Contient noise might and most likely put Templeton on edge so what happens from there will be the instigator problem.

5. ☐ I/We **am / am not** a trade competitor for the purposes of section 308B of the Resource Management Act 1991.
I/We **am / am not** directly affected by an effect of the subject matter of the submission that (a) adversely affects the environment; and (b) does not relate to trade competition or the effects of trade competition.
