Reasons comment:

1. I am opposed to this quarry as I believe it is too close to people's existing homes and also the existing community of Templeton. There must be other more suitable locations which can provide Fulton Hogan what they require, without the need to quarry this close to people's homes.. (Note: that this is true, FH have a whole map of land they have identified that would be suitable for them and there are plenty of locations noted that are far from existing suburbs and homes). 2. I am opposed to this quarry as I am concerned as to the precedent this would set for allowing quarrying close to people's homes and also the impact this will have on the future of the Selwyn District if approved. (You may want to consider this one if you either live out this way, or are ever considering it. Any suburbs/areas that are on the rural fringe - Prebbleton, West Melton, Lincoln, Rolleston would be sitting ducks for something similar if it were approved). 3. I am opposed to this quarry out of concern for my friend/niece and nephew/family members who live in Templeton and who I believe the adverse impacts of the proposed quarry will have a more than minor effect on. These impacts will relate to dust, traffic movements and noise and vibration.

Consent comment:

I wish the consenting authority to decline the application in full
