To whom it may concern

RE APPLICANT: FULTON HOGAN LIMITED

- CRC192408 Land use to excavate material
- CRC182409 Land use to deposit cleanfill
- CRC192410 Discharge contaminants into air
- CRC192411 Discharge contaminants into water from industrial processes
- CRC192412 Discharge stormwater into land
- CRC192413 Discharge contaminants into land associated with deposition of cleanfill
- CRC192414 Water permit

☐ I support the application.
☐ I ~~do~~/do not wish to be heard in support of my submission.

The reasons for making my submission are:

1. The new Roydon Quarry at Jones Road will be a direct replacement of Pound Road quarry.

2. It will allow for a continuation of high quality aggregate supply that is essential for the growth predictions of the future of the region

3. 90% of the truck movements from the proposed site will go directly to State Highway 1. This will be beneficial to help reduce the current congested traffic flows on the rural and minor roads.

4. The infrastructure in and around Christchurch needs continual work and the continued supply of high quality aggregate will help to meet these needs.

5. Fulton Hogan are an operator that cares for the environment. Their five year commitment to the Takahe recovery programme is a good example of this willingness to lead the way in environmental projects. Their commitment to the environment will extend to utilizing the latest dust suppression and dust management techniques for the proposed Roydon site.

6. The construction of the proposed bunds will enhance the landscape for the site. It will also ensure that any noise generated at the site does not become a nuisance for present and future neighbours.

7. The smaller open areas of the site will make it much more appealing than the current "open plan" quarries.

8. Fulton Hogan have the financial resources and willingness to ensure that the proposed quarry at Jones Road becomes an exemplar site for the future and leads the way in how a successful quarry should be managed.

Yours sincerely

To whom it may concern

The Institute of Quarrying NZ (Inc) provided a submission, dated 5 June 2019 (attached), in support of Fulton Hogan's proposed Roydon Quarry.

For clarification, this is a supplementary email to confirm that the submission supports the application to Selwyn District Council, referenced RC185627 - Land use for gravel extraction and processes. We seek that the consent authority makes the decision to grant all of the applications subject to appropriate conditions, as proposed by the applicant.

We are not a trade competitor for the purposes of section 308B of the Resource Management Act 1991. We are not directly affected by an effect of the subject matter of the submission that (a) adversely affects the environment; and (b) does not relate to trade competition or the effects of trade competition.

The relevant submission details are as follows:
