**Reasons comment:**

The facts and proposed consent conditions written within the application have given me confidence that the proposed quarry will have a less than minor environmental effect. I have confidence in Fulton Hogan as they are known as being industry leaders and I believe they will be true to their word and will listen and act on the concerns of all people. The quarry will not only provide employment opportunities for Fulton Hogan but to the wider construction industry. The quarry will provide aggregate close to source for the growing Selwyn District which will in return keep costs down to rates payers. Fulton Hogan takes pride in its appearance by planting bunds with native plants and creating visually pleasing entrances. Fulton Hogan also commits to progressive rehabilitation such as what can be seen in Pound Road.

---

**Consent comment:**

I wish for the consent authorities to grant all consents that have been applied for and to implement the proposed conditions.
