Reasons comment:

That the quarry is in the wrong site and should be on the other side of the main west coast road were F/H has land and there are other quarries the increase in traffic on the surrounding roads noise from the quarry if it goes 24hours pollution from dust etc. the pollution of the ground water the health concerns related to quarries

Consent comment:

do not let the quarry proceeded as I feel this is in the wrong location being close to the township of Templeton That the quarry is in the wrong site and should be on the other side of the main west coast road were F/H has land. the increase in traffic on the surrounding roads noise from the quarry pollution from dust etc. the pollution of the ground water If it is allowed to go ahead it should have the following conditions apply limited traffic movements in and out hours of operation 8am to 5pm no weekend work limited to 5 meters depth surrounding roads upgraded to suit the increase traffic movements and size of the trucks
