Reasons comment:

This quarry is going to be established close to the Buddhist temple in the area. It is the only Theravada Buddhist temple in the South Island and religious place for practicing meditation and other worshiping activities. Therefore, it is expected that the temple to have a calm and quite environment. With establishment of this quarry it will definitely become noisy in that area and the temple will become not a friendly venue for such meditation activities.

Consent comment:

As this project affect negatively and probably it may significant disturbances to the temple and it is suggested to move the quarry to a suitable remote and isolated site to avoid such disturbances to the general public and to the users of this temple.
