Application to Selwyn District Council

RC185627 Land use for gravel extraction and processes

I / We support the application I / We oppose the application I / We are neutral to the application
(neither support or oppose)

I / We **do** wish to be heard in support of my/our submission*
(Note: this means you wish to speak in support of your submission at the hearing)
*If others make a similar submission, I will consider presenting a joint case with them at the hearing Yes No

OR

I / We **do not** wish to be heard in support of my/our submission
(Note: this means that you cannot speak at the hearing, however you will retain your right to appeal any decision to the Environment Court on any decision made by the Council.)

2. The reasons for making my submission are: *(state in summary the nature of your submission, giving reasons)*

I have lived here for twenty years. I bought here because it's a peaceful and quiet location, it has great unspoiled views of the surrounding landscape. I have been fortunate to have three full time farmers on adjoining properties willing to help me when asked. It has allowed me to work from home, farm the land and sell produce to the local market. At the same time investing for my retirement and my family's future. I am still raising my family here, they walk or ride their bikes down Curragh's road to the bus stop on Jones road before and after school. _____

Transport: Roads are unable to handle large trucks. Trucks are unable to pass oncoming trucks without having to drive off the road. I have attended several accidents on three of the four corners adjacent to this proposed quarry. _____

Water: When I first moved into this area I use to be able to draw water out of my well at 16meters. Of recent times I have had to sink another well and now draw at 35 meters. You cannot get a new consent to draw water as Ecan stated the water aquafer is already overdrawn. _____

Dust: Dust is unable to be managed in extreme conditions, we see this now. _____

Noise: Having bought in the inner planes zone noise is minimal and all the associated quarrying activities will destroy this. _____

Health effects: This is my whole life style, I have lived this twenty four hours a day for twenty years now you want to destroy what I have worked almost all my life for. Everyone has a breaking point. Thanks. _____

Amenity: Pollute water, Dust, Noise, Traffic volume and traffic noise, Visual pleasantness. Devalue any future potential. _____

Compliance: The councils are unable to monitor these activities and it is not acceptable to self-monitor. _____

Please attach additional pages if required

3. I wish the consent authority to make the following decision: *(give details, including the general nature of any conditions sought)*

Backfill using river shingle. Several local rivers have massive quantities of shingle and have rail bridges crossing them. Rate payers are paying massive money to shift shingle. Use this shingle to restore the lands natural filter as large quantities can be shifted easily by rail. This will reduce the chance of polluting the ground water. _____

Put footpaths around the local areas so people can still move round safely with the increased traffic flow. _____

Widen the local roads to handle the large truck movements. _____

Work hours Monday to Friday 8am 5pm only. _____

Put in a rail siding and use the rail network to shift the large volumes. _____

Independent monitoring you cannot self-monitor. _____

Please attach additional pages if required

5. I/We **am / am not** a trade competitor for the purposes of section 308B of the Resource Management Act 1991. I/We **am / am not** directly affected by an effect of the subject matter of the submission that (a) adversely affects the environment; and (b) does not relate to trade competition or the effects of trade competition.

Signature of submitter or duly authorised agent on behalf of submitter

Date 28 / 5 /2019
