Reasons comment:

I believe that the operations proposed by the applicant will be extremely well managed to mitigate effects. Although opposers may say that the quarry (& others) should be further out, the proximity of suitable construction aggregates supplies to Christchurch to allow the sustainable development of Christchurch is critical. The location is also ideal as being relatively close to Christchurch it will minimize the fuel burn of delivery trucks. This proposal will also generate work and income for many people

Consent comment:

I wish the consent authority grant all consents applied for
