---

Hello,

I beg you to consider the people of Canterbury and Christchurch that you are elected to represent. I hope you are working to improve all of our lives.

It has been very clear that water quality is a major issue that concerns Christchurch citizens. Please do not allow for an increase in nitrate levels. It would also make sense to engage relevant professionals to do studies of the effects of the nitrates on our drinking water.

Again, please thinking of the people living in the region and health of all the people that your decisions will impact.

Thank you,

**Joris de Vocht**
