Subject: Plan Change 7to the LWRP submission
Date: Wednesday, 11 September 2019 8:09:59 AM

Please find enclosed my submission to plan change 7
I wish to appear before the hearing and request that as much notification to the date and time
be given as I am co-ordinating 2 international experts to assist.

I could not gain a financial gain a financial advantage in trade competition through this submission.

I wish to be heard in support of this submission.

Is Plan change 7 relevant any longer after the latest govt announcements would seem to over rule most of the content ?

My reasons for this submission are that I feel that there has been a serious breach of the declaration of Human rights under chapter 7 of the act that deals with the private property rights. This Human rights Declaration document takes preference over any other NZ law and seems to have been ignored.

The fact that a lot of the submissions included in consultation have been left out by the ECAN staff including published papers from Lincoln and international sources.

At no stage has the effects environment has on the ruminant digestive system been taken in to account and is why a lot of the current proposals will fail and the fact that some of the present ECAN requirements have in fact exacerbated the problems.

I wish to demonstrate that advice given under the GFM document is NOT up to date and is counter productive to achieving the aims we wish to achieve for our land and water plan.

I wish to also demonstrate that past commissioners have also made mistakes due to not enough agricultural and or Private Property rights expertise being available or ignored.

Despite 3 scientific reviews and 2 from the Commissioner for the Environment showing that Overseer cannot be used as a regulatory tool, ECAN has gone on regardless basing its entire land management on this faulty tool without looking at viable proven alternatives. I wish to go over these at the hearing.
