(1) The specific provisions of the Proposed Plan that my submission relates to are:		(2) My submission is that: (include whether you support or oppose the specific provisions or wish to have them amended and the reasons for your views.)		(3) I seek the following decisions from Environment Canterbury: (Please give precise details for each provision. The more specific you can be the easier it will be for the Council to understand your concerns.)
Section & Page Number	Sub-section/ Point	Oppose/support (in part or full)	Reasons	
Policy 4.102		oppose	The implication of allowing new structures or retrofitting of any existing structure to enable indigenous fish passage while avoiding/prohibiting the passage of species deemed to have adverse effects on native populations appears to allow for the exclusion of Salmonoids - introduced trout and salmon. This is unacceptable to me and my wife. We fish for trout almost exclusively in Canterbury. Trout populations would plummet and natural spawning would cease in rivers and streams with exclusion structures. I can see the small streams entering for example Lake Heron being easily blocked off to spawning. Hatchery fish would become the norm. Inferior & costly to rear. I object to the cost of the structures coming from my ECAN rates bill. If allowed to progress I can see trout fishing and salmon fishing destroyed. No structures for purpose of excluding Salmonoids!	No structures that could exclude Salmonoids except: the very top of small streams where there is ample spawning available to trout and salmon below the structure. Consultation with fish & game with every proposal for a structure.
