Section & Page Number	Sub-section/ Point	Oppose/support (in part or full)	Reasons	
Part C to PC7		Oppose	The additional cost of an audited <del>EB</del> FEP is not an unnecessary financial burden. If non compliance to best practice, then those avenues should be used, not a blanket expense for a consultant rather than on farm \$ spent.	Do not enforce more compliance costs for everyone - instead target funds for non-compliance
AVOIDED FARM ENVIRONMENT PLANS				
1? unsure what Section & Page.		oppose.	Based on <del>no</del> scientific modelling rather than actual results.	Look at what changes have been made, give time for new testing to be done rather than "shift the goal post" again.
no: Proposed 15-30% reductions in nitrogen losses.			The changes made in the last 10 years <u>must</u> be helping.	
			General comment.	
			Too much emphasis has been made on farming community that is the micron - if you make urban changes including tourism, you will see a bigger improvement in the environment/	water quality.
