

Submission on Plan Change 7 to the Canterbury Land and Water Regional Plan

By **Brorens, F**

Submitter Identification number: **PC7-496**

Wishes to be heard: **No**

Would consider making a joint submission at the hearing: **No**

Submitted on: **03/09/2019**

This submission was submitted via Environment Canterbury's online submission portal. The Submissions portal generates pdf files of submissions (as attached). However, some of the information that appears in the pdf files is not consistent with information the submitter entered into the portal, specifically, where submitters have ticked:

- "I wish to be heard in support of my submission" ; and
- "If others make a similar submission I will consider presenting a joint case with them at a hearing".

Additionally, the submissions portal has generated submitter and submission point numbers that are not consistent with the numbering applied in the Summary of Decisions Requested. Submission points in the Summary of Decisions Requested (SODR) are numbered using the following format:

PC7 – Submitter ID #.Submission point #

The correct submitter identification number and submitter information is specified above. This will be the number referred to in the SODR.

Point 14.1

Submission

I think nitrate levels are dangerously high and must be reduced quickly. I think the first interval should be 5 years and not 10. We could support farmers to do this.

Relief sought

5 year intervals (please)

Nitrate in the aquifers is madness

I support higher health standards for water, the land, life and people (please)
