

## **Submission on Plan Change 7 to the Canterbury Land and Water Regional Plan**

By **Cleaver, C**

Submitter Identification number: **PC7-500**

Wishes to be heard: **Yes**

Would consider making a joint submission at the hearing: **Yes**

Submitted on: **06/09/2019**

This submission was submitted via Environment Canterbury's online submission portal. The Submissions portal generates pdf files of submissions (as attached). However, some of the information that appears in the pdf files is not consistent with information the submitter entered into the portal, specifically, where submitters have ticked:

- "I wish to be heard in support of my submission" ; and
- "If others make a similar submission I will consider presenting a joint case with them at a hearing".

Additionally, the submissions portal has generated submitter and submission point numbers that are not consistent with the numbering applied in the Summary of Decisions Requested. Submission points in the Summary of Decisions Requested (SODR) are numbered using the following format:

PC7 – Submitter ID #.Submission point #

**The correct submitter identification number and submitter information is specified above. This will be the number referred to in the SODR.**

### Point 18.1

#### Submission

We oppose the changes to the

Section- Habitat of Indigenous Freshwater Species

Policy 4.102

any prevention of non indigenous species to be able to migrate at will for spawning and habitat purposes would affect our business at the Ahuriri River Lodge.

Further we find the policy would prevent us continuing our business and severely affect and in all likelihood destroy our livelihood and business as we rely on the Upper Ahuriri and its outstanding trout fishery for our income. We are after all a fishing lodge targeting catch and release rainbow and brown trout.

As ECAN rate payers we find the heavy handed approach unacceptable and considering what poor monitoring of nitrates and pollution from dairy that ECAN has conducted leading to the massive degradation of fresh water rivers to now want to further prohibit species movement is strongly opposed.
