

Submission on Plan Change 7 to the Canterbury Land and Water Regional Plan

By **Marchesi, D**

Submitter Identification number: **PC7-503**

Wishes to be heard: **No**

Would consider making a joint submission at the hearing: **No**

Submitted on: **06/09/2019**

This submission was submitted via Environment Canterbury's online submission portal. The Submissions portal generates pdf files of submissions (as attached). However, some of the information that appears in the pdf files is not consistent with information the submitter entered into the portal, specifically, where submitters have ticked:

- "I wish to be heard in support of my submission" ; and
- "If others make a similar submission I will consider presenting a joint case with them at a hearing".

Additionally, the submissions portal has generated submitter and submission point numbers that are not consistent with the numbering applied in the Summary of Decisions Requested. Submission points in the Summary of Decisions Requested (SODR) are numbered using the following format:

PC7 – Submitter ID #.Submission point #

The correct submitter identification number and submitter information is specified above. This will be the number referred to in the SODR.

Proposed Plan Change 7 to the Land and Water Regional Plan

Form 5 Submission on publically notified proposal for policy statement or plan, change or variation

Clause 6 of Schedule 1, Resource Management Act 1991

To Environment Canterbury - Tavisha Fernando
Date received 6/09/2019 6:37:05 PM
Submission #21

Wishes to be heard? No
Is willing to present a joint case? No

Proposed Plan Change 7 has been developed to respond to emerging resource management issues, to give effect to relevant national direction, to implement recommendations from the Hinds Drains' Working Party, and to implement recommendations in the Waimakariri and Orari-Temuka-Opihi-Pareora (OTOP) Zone Implementation Programme Addenda (ZIPA).

- Could you gain an advantage in trade competition in making this submission?
- No
- Are you directly affected by an effect of the subject matter of the submission that
(a) adversely affects the environment; and
(b) does not relate to trade competition or the effects of trade competition
- Yes

Submission points

Point 21.1

Submission

I have been visiting Caterbury region for past 15 years as a fly fisherman angling for trout and am concerned that placing structures in water ways would stop the movement of trout in valued trout waters and would impact on the number of areas available to angle for trout. This could cause anglers to consider going to other areas to fish resulting in an economic impact on the Canterbury region. Anglers both local and visiting spend a lot of money in the region to fish there and this could be impacted by a reduction in the number of waterways with trout in them causing anglers to go elsewhere to fish. I would like to see no changes to the current waterways available for trout fishing.

Relief sought

I would ask that no structures are place in waterways that would be detrimental to the movement of trout and salmanoids.

Section: Section 4 Policies

Sub-section: Section 4 Policies

Provision

4.102

Structures enable the safe passage of indigenous fish, while avoiding as far as practicable, the passage of any invasive, pest or nuisance fish species by:

- a. the appropriate design, construction, installation and maintenance of new in-stream structures; and
- b. the modification, reconstruction or removed of existing in-stream structures.
