This submission was submitted via Environment Canterbury's online submission portal. The Submissions portal generates pdf files of submissions (as attached). However, some of the information that appears in the pdf files is not consistent with information the submitter entered into the portal, specifically, where submitters have ticked:

- "I wish to be heard in support of my submission" ; and
- "If others make a similar submission I will consider presenting a joint case with them at a hearing".

Additionally, the submissions portal has generated submitter and submission point numbers that are not consistent with the numbering applied in the Summary of Decisions Requested. Submission points in the Summary of Decisions Requested (SODR) are numbered using the following format:

PC7 – Submitter ID #.Submission point #

Point 34.1

Submission

I oppose policy4.102 as it would block the passage of my valued sports fish in waters I regularly fish. It also does not have regard to section 7 RMA (habitat of trout & salmon) & interferes with fish & game functions under the Conservation act (section 26Q) interferes with DOC's functions under the conservation act (section 6 (ab)) is contrary to water conservation orders where outstanding values are recognized and waters are protected for spawning & angling and contrary to the Canterbury Regional Policy Statement where values such as fishing are recognized.

Relief sought

Change the provision so it protects the trout & salmon fishery for anglers allowing the safe passage of valued sports fish.
