

Submission on Plan Change 7 to the Canterbury Land and Water Regional Plan

By **Dingle, C**

Submitter Identification number: **PC7-561**

Wishes to be heard: **No**

Would consider making a joint submission at the hearing: **No**

Submitted on: **12/09/2019**

This submission was submitted via Environment Canterbury's online submission portal. The Submissions portal generates pdf files of submissions (as attached). However, some of the information that appears in the pdf files is not consistent with information the submitter entered into the portal, specifically, where submitters have ticked:

- "I wish to be heard in support of my submission" ; and
- "If others make a similar submission I will consider presenting a joint case with them at a hearing".

Additionally, the submissions portal has generated submitter and submission point numbers that are not consistent with the numbering applied in the Summary of Decisions Requested. Submission points in the Summary of Decisions Requested (SODR) are numbered using the following format:

PC7 – Submitter ID #.Submission point #

The correct submitter identification number and submitter information is specified above. This will be the number referred to in the SODR.

Proposed Plan Change 7 to the Land and Water Regional Plan

Form 5 Submission on publically notified proposal for policy statement or plan, change or variation

Clause 6 of Schedule 1, Resource Management Act 1991

To Environment Canterbury - Tavisha Fernando
Date received 12/09/2019 4:15:34 PM
Submission #91

Email: cathy@cathydee.com
Wishes to be heard? No
Is willing to present a joint case? No

Proposed Plan Change 7 has been developed to respond to emerging resource management issues, to give effect to relevant national direction, to implement recommendations from the Hinds Drains' Working Party, and to implement recommendations in the Waimakariri and Orari-Temuka-Opihi-Pareora (OTOP) Zone Implementation Programme Addenda (ZIPA).

- Could you gain an advantage in trade competition in making this submission?
 - No
- Are you directly affected by an effect of the subject matter of the submission that
 - (a) adversely affects the environment; and
 - (b) does not relate to trade competition or the effects of trade competition
 - Yes

Submission points

Point 91.1

Submission

Research has found a statistically significant increase in colorectal cancer risk at 0.87ppm (parts per million) of nitrate-nitrogen in drinking water. There was a 15 per cent increase in risk at levels over 2.1ppm, compared with those who have the least exposure.

Your so called safe limit is 10ppm which is already far too high and it is my understanding that this will increase it further. This puts us all at risk and is totally UNACCEPTABLE .

It is YOUR JOB to protect the environment for us all to enjoy a future. I see no evidence of you doing your job.

You need to be imposing severe restrictions on all intensive dairy . Enough is enough.

Relief sought

It is YOUR JOB to protect the environment for us all to enjoy a future. I see no evidence of you doing your job. You need to be imposing severe restrictions on all intensive dairy . Enough is enough.
