**Addendum to Section 42A Officer's Report dated 2 September 2019**

**Report of Hannah Louise Goslin**

1. This report is an addendum to my primary section 42A report dated 2 September 2019 and should be read in conjunction with that report.
2. This addendum addresses the conclusions made in the addendum to Mr Freeman's section 42A report prepared by Mr Knoyle.
3. Since the circulation of section 42A Reports, Mr Freeman has left the Canterbury Regional Council. The primary purpose of Mr Knoyle's addendum report is to confirm Mr Freeman's assessment and identify any areas of disagreement or new areas which require investigation.
4. This addendum report is prepared in accordance with section 42A of the Resource Management Act 1991.
5. I agree with the conclusions made in Mr Knoyle's addendum report and consider the investigation of additional possible HAIL sites identified by Mr Knoyle can be addressed through recommended consent conditions. This approach is consistent with the advice of Mr Knoyle.
6. The conclusions made in Mr Knoyle's addendum, have no impact on my current conclusions with regards to the actual and potential adverse effects on groundwater quality and users or effects arising from contaminated soils.
