Hello Daniel

I have received your email submitting on the notified resource consent applications of Oceania Dairy Ltd. As a submission to the notified application can you please advise if you wish to be heard at any hearing; or you do not wish to be heard at a hearing.

Regards

Alison Cooper

Consents Hearings

Opposed to the waste water outfall.

Discharge is unacceptable

Ecan are already allowing them to bottle our prestige water and export it without minimal fees and no return on resource.

Now you are considering letting them discharge the water they don't want in our prestige ocean.

Maybe they could bottle their waste water and export it too where their primary export product is heading.
