KiwiRail have an interest only in the detail of the proposal as it relates to the ability to safely and efficiently operate the rail corridor. KiwiRail has no opinion as to the necessity or suitability of the proposal beyond its interaction with the rail corridor. The proposed pipeline is to pass under the Main South Line (MSL), and construction has been

confirmed by the applicant as complying with KiwiRail's standards for pipelines under the railway, and is subject to future approvals for the legal ability to physically install the pipe within rail land. This will include provision of the detail design and drawings for the section of the pipeline proposed under the MSL, and a Deed of Grant being obtained along with a Permit to Enter. Given the compliance with the standards, and the future approvals process, KiwiRail do not oppose the installation of the pipeline as proposed under the MSL.

3. I wish the consent authority to make the following decision:
