Reasons comment:

It is ridiculous and unacceptable to be putting this waste in our oceans and as a small country that respects and relies on a clean environment this overseas company must be

responsible for any wastage themselves and not by dumping it at sea. New Zealand dairy does not do this so why should they?! Our fisheries and tourism would be put at risk as well as New Zealanders right to swim and enjoy our coastline. A big NO NO NO

Consent comment:

That no by product or wastage is allowed to enter our waters under any circumstances.
