

Submission Against Oceania Dairy

187868

I read in the paper about that 7.5Km pipeline they are building to discharge waste matter into the coast in a marine reserve.

If it was a small matter of waste but it plans to pipe 10 million litres daily that makes me angry as it will amount to 70 millions a week into our ocean.

The Oceania Dairy run by Inner Mongolia Yili Group Co Ltd.

Not minimal damage but dreadful amount we have to keep our ocean clean would they pollute China like this.

Yours Faithfully

Mrs K M Warren.
