Your submission on the Proposal for the Canterbury Regional Pest Management Plan

I am against the use of 1080 poison in our forested areas. This is an inhumane death for the birds and animals that ingest it and we have laws in our country against cruelty to animals.

I am also against the use of chemical weedkillers in our parks and grass verges and any green area used by humans and animals.

My dogs skin was burned by grass that had been sprayed by the sand dunes.
