---

**Reasons comment:**

In support of the existing activities and future extensions representing sustainable

management, meeting the policies and objectives of the district and regional plans. Also, on the basis of our longstanding professional relationship and the positive attributes of Canterbury Coal throughout the Selwyn District and the nationwide financial spin-off from the mining operations. Furthermore, at a time more so than ever, New Zealand needs to have viable local industry to provide overseas income. Other positive attributes of this operation includes continued employment of 5 people in our Westport Printing business along with our local courier companies and transport operators, bringing supplies from Canterbury warehouses thereby ensuring other employment as well as injecting operational dollars into the South Island and to NZ.

---

**Consent comment:**

To grant consent to each and every one of the Bathurst Coal Limited (Canterbury Coal) applications in order that this mining operation may continue to expand with planned increased production and retrospective activities. Mitigation measures developed over the last 5 years of mining operations by this applicant have been refined and documented within annual reporting and the overall effects of the current and proposed mining/mining operations at the CCM are considered to be appropriately controlled and minor.
