Reasons comment:

I am submitting against Bathurst Coal's application because scientists have warned that if

the global economy does not shift away from fossil fuels within the next decade, we will be unable to avoid catastrophic levels of climate change. We can't afford to keep propping up the coal industry. Bathurst's existing mine in Canterbury has already threatened the habitats of endangered native fish by breaching its discharge consents and inconvenienced local communities with dust and noise pollution, so allowing them to expand their mining operation could easily worsen the problem.

Consent comment:

Deny Bathurst Coal's application.
