Reasons comment:

NZ now needs to be able to rely on it's own resources. Removing a local source will add an

extra burden to an already stressed businesses and economy in general. Job losses are projected to rise at an unprecedented rate, where we are able we should not contribute to this. This mine is supporting local industry,so please support this mine. This mine meets required standards and is a good example of a well ordered clean mining site, the commitment shown here should be encouraged. This being the case and with the advantage of Canturbury Coal Ltd being a smaller mine, here stands a perfect opportunity to develop a good progressive working relationship with the end possibility of a successful working model. Now more than ever before we need to be using common sense as highlighted in the above. Please support the local and national economy by making sound decisions.
