Subject: You received a submission for Bathurst Mine Resource Consent
Date: Monday, 18 May 2020 4:47:49 PM

Form Summary	
Name	Mathias Corwin
Email	
Multiple choice	I oppose allowing further earthworks and discharges of contaminants into water and air as part of the expansion of the Canterbury Coal Mine., I oppose Bathurst Mining Limited being granted retroactive consent for uncontested earthworks within Canterbury Coal Mine., I support actions that may be required to mitigate the impacts of the existing harms caused by the mine.
Why do you oppose the mine?	As a chemical and process engineer, I understand all too well the difficulties involved in phasing out coal. However, the longer this is delayed the more we are passing down the problem to future generations. The long term ramifications of continuing fossil fuel extraction are horrific - an estimated 200 million people forced to migrate, global mass extinction and a bill estimated in the trillions are the legacy we are leaving future generations by continuing fossil fuel extraction.
