Reasons comment:

CRC201368/CRC203016 (as long as our ponds are monitored and tested every month as

we use main pond for stock water RC185622- strongly oppose as working at night is Disruptive of our sleep, when they worked last time at night, the bulldozer sounded like it was right outside our house, very loud depending on wind levels. We are in direct view of there proposed movements. I propose they work between 6am-10pm maximum
CRC200500- as long as they arn't working under gale force wind conditions as when they do it's not safe for our health to be outside
