Reasons comment:

Environmental. The conversion of large parts of malvern to dairying has degraded our

rivers. Water is n.z.s true gold not milk. Long term water will be a scarce resource world wide .look ahead. Plan . The bathurst coal mine has NOT shown a record of environmental care. burning fossil fuels is bad for preventing climate change and dairying is hurtful to the land and waterways and also for the dreadful abuse the cows suffer as one by one their babies are killed .
