Reasons comment:

I strongly oppose the expansion of any form of coal mining operations. There is irrefutable

evidence that the extraction and burning of fossil fuels, releasing carbon into the atmosphere, is significantly contributing to climate change and the emergency we face. If we have any hope of keeping below warming of 1.5 degrees we must shift away from fossil fuel consumption and most certainly leave coal in the earth. As a doctor, a mother and a human I add my voice to the opposition of the expansion sought by Bathurst Coal.
