**Reasons comment:**

Are they bloomin' serious? Extending coal mining with all the knowledge about climate

change that we have now? Please, please, please say 'no' to Bathurst on this. Think of our 'Clean, Green, New Zealand' image, think of the waterways that will have more sediment due to the discharge of 'mine influenced water', think of the extra carbon in the air due to that coal being burnt. Force them to think up an alternative to heating things than coal! Leave the coal in the ground!

---

**Consent comment:**

To oppose all requests to extend the coalmine (and then turn that land into a nature reserve; to really show them what the world is coming to!)
