Reasons comment:

Climate change. There was a climate emergency when Environment Canterbury declared it

so last year. There's still a climate emergency today. The coal industry has no place in the 21st century. If climate change cannot be considered directly, then consider it indirectly. It is unreasonable to grant any further consents to a company that so brazenly acts against the well-being of the environment and future generations. I oppose the expansion of Canterbury Coal Mine.

Consent comment:

Do not approve.
