**Reasons comment:**

I am opposed to this further expansion/continuation of this environmentally damaging

operation. There are clear negative impacts on fresh water quality, locally and downstream, fish health and survival, and the intactness of existing wet lands. As well as the negative impacts on air quality when this low grade coal is burned for commercial heating/dry. This proposed project is contrary to our increasing awareness and realisation that we have a responsibility to manage our environment in a sustainable manner

---

**Consent comment:**

To decline these applications for continuation and expansion
