**Reasons comment:**

The mining at Coalgate creates a huge amount of noise that drifts across to our home in

Coalgate- we can hear it day and night constantly, it's especially noticeable at night which means we can't sleep with the windows open as we're used to in our rural property because it keeps us awake. I'm concerned that wildlife in the area will be disturbed or even dislodged. The endangered mudfish in the valley live downstream of the coalmine and recently Bathurst was convicted (again) for resource consent non compliance. I don't think Bathurst is interested in being environmentally sensitive whilst mining. In light of the many breaches of consents Bathurst has amassed, fully showing a pattern of disregard of consent condition I submit that this company should not gain any more consents and should instead be required to forfeit any and all consents already given. Bathurst has systematically short changed local communities by undermining their obligations to be a fair business, instead waiting to be caught for non-compliance before flea-bargaining some sort of deal with authorities in a dollar saving opportunistic approach. I submit to stop this happening again that all consent be declined.

---

**Consent comment:**

decline all consents repeat offenders such as Bathurst should not be allowed any new consents as they don't consider any consent conditions important enough to undertake.
