Subject: You received a submission for Bathurst Mine Resource Consent
Date: Sunday, 17 May 2020 9:45:16 PM

Form Summary	
Name	Anton Pichler
Email	
Multiple choice	I oppose allowing further earthworks and discharges of contaminants into water and air as part of the expansion of the Canterbury Coal Mine., I oppose Bathurst Mining Limited being granted retroactive consent for uncontested earthworks within Canterbury Coal Mine., I support actions that may be required to mitigate the impacts of the existing harms caused by the mine.
Why do you oppose the mine?	Expanding a coal mine at a point where we need to reduce carbon emissions rapidly is problematic. It directs resources toward an activity that requires even greater mitigation when existing transformation of our economy is immense. It disincentivises coal uses from changing fuel sources to low carbon options. It also socialises costs far greater than the local impact on land and resource, but to society as a whole.
