Reasons comment:

We have just seen the unprecedented renewal of the planets air and water quality as a

direct result of inhibiting human travel and emissions. Taking steps to provide coal to restart these emissions and reduction in pollution is a shortsighted and backward step. Moreover, the removal of wetland/seepages and indigenous and non-indigenous vegetation directly diminishes the local ecosystem's capacity to regulate and restore balance. Please stop this expansion and works.

Consent comment:

Please do not allow this expansion and works to commence on this level.
