**Reasons comment:**

Bathurst Canterbury is a large employer for the local community, directly, and indirectly

the supporter of many local businesses, including but not limited to engineering, transportation, motels, hotels, community venues, supermarkets, bakeries, cafes, schools and real estate. They are also supporters of local community events. Given the current economic environment, Bathurst's support to the local and wider community will be greatly received in the rebuilding of our local economy and towards that of our country. Currently, there is no financially viable alternative to coal for Bathurst clients, the Selwyn District has this resource. Allowing this reputable company to continue to mine this resource will keep local people employed and local businesses alive. By granting these consents, ECAN and SDC are able to monitor the mining activities including the management of all environmental aspects and rehabilitation to ensure the high standard currently maintained by the company.
